

NORTHERN HOME INSPECTIONS

1-847-927-1957

Buying a new home is one of the biggest investments you will make. You deserve to have the peace of mind that comes with having a thorough and comprehensive property inspection performed by a qualified Home Inspector and veteran home builder. I am an 18 year member of the American Society of Home Inspectors and an Illinois Licensed inspector. I have also been involved in the home building industry for over 25 years.

What I will provide for you:

- Personalized service dedicated to you and your purchase. A complete examination of your purchase and an honest evaluation of all components of the property. I will evaluate all aspects of the property and provide an internet based computer generated report.
- An inspection that will help take the mystery out of buying a home. I try to make the inspection as informative as possible and will answer questions that you may have regarding the home, the operation of components and any concerns that arise from the inspection.
- Experience in all types of residential building types from new to old, single Family to 3 Flats, Condos and Townhouses.

Let me help you through the inspection phase of your home purchase. I am very flexible with my scheduling and will work at your convenience.
